

ACCOUNTANTS WHOLESALE PROGRAM

WE PARTNER WITH AMBITIOUS ACCOUNTANTS

We give you and your clients confidence in payroll, so you can conquer the rest of your business. We partner with future-oriented accountants who know that in order to maximize their impact and grow their most profitable business segments, payroll must be outsourced to a trusted partner.

THE RIGHT PARTNER MATTERS

Not just any payroll company will do. In fact, the Big Payroll companies will hinder your growth and frustrate your clients with their call centers, slow response times, constant rep turnover, and unforced errors.

Here's the value we provide you and your clients, that is unmatched by our competitors:

Exclusively for Small Business. We only work with small businesses. We actively turn down big clients, so we can fulfill our mission of providing payroll confidence to the small business community.

Laser Focused on Payroll. For Big Payroll companies, payroll is just the hook to sell more lucrative services like benefits, retirement, and HR. That's not us. We are 100% committed to being a world-class payroll service company, and we won't water down our core offering or constantly upsell your clients with other products.

Our Responsiveness Guarantee. Timely and accurate communication is everything in this business. Our Responsiveness Guarantee means:

- Your clients will always have a single point of contact to work with.
- You and your clients can easily reach us by email, phone or even text.
- We guarantee email responses in two hours or less.

LET US BE YOUR PAYROLL DEPARTMENT

Our goal is to let you outsource the payroll function to us, so that you are freed up to provide more profitable, value-add services to your clients. A simple introduction to your clients is all that's needed, and we will take it from there.

We will set up your clients, register their payroll tax accounts, set up 2 employees, process payroll, file and deposit all payroll taxes, and handle any issues that might arise. You can be confident that payroll is taken care of.

Michael Wall, CPA, Partner
FSB&W, LLC

Tyler and his team helped me set up and execute a weekly payroll for my client. They were very patient during the process as my clients former payroll provider left a number of 'loose ends' to be dealt with.

Once we were through the setup process my client found the service to be easy to use, their questions and concerns answered timely and most importantly their employees got paid. Cirrus Payroll made me look even better to my client through their excellent service.
